RETREAT UPDATE #2

There are still openings for the Honors retreat to Sunset Beach. Again, we stress that those of you who are new to the program should participate with us. Also, if you are a Teaching Fellow and are not going on the Teaching Fellow retreat, you are more than welcome to accompany your fellow Honors students to Sunset Beach. An information session on September 21st at 4:00 in the MCR (MAPLE COMMUNITY ROOM) will provide you with more details. If you are interested, either fill out the form below and return it to the Honors office, or come by and let us know in person.

Fitness and Nutrition Program

Linda Navé will speak on fitness and nutrition at 7:00 pm in the 2nd floor lounge. This will be a great way for all of us couch potatoes to get in shape. Oh, by the way, refreshments will be served as well ? !

CRIME

Thursday morning; 5:30am; Honors Computer Room. Two students who were not Honors students managed to set off the alarm. The police responded immediately. Of course these students protested that "...they didn't do nothing." The alarm doesn't sound off for no reason, so such protestations do not wash.

How did these students get into the building and into the room and how did they get signed onto the computer without a password? Well, an Honors student helped them. Need I say more? If you want to keep the computers, don't help non-Honors students violate the security software and hardware. In fact don't encourage others to use the system at all.
